ABOUT US

Project Guardian is a veteran-operated, non-profit organization focused on protecting children.

Our Mission:

We coordinate paid and volunteer services at schools, such as school security consulting focused on preventing active shooter incidents; and we find and rescue missing children.

Our Commitment:

We believe all human life is worth protecting, most of all children. With the rise of active shooter incidents, we aim to make a difference in schools.

Human trafficking also effects largely children, therefore we act on information and intelligence, in coordination with law enforcement, to find and recover victimized children, as well as prosecute predators.

Thank you for your consideration in supporting Project Guardian.

Sincerely,

Joseph M. LaSorsa
President
